

Inventory Metrics Navigation

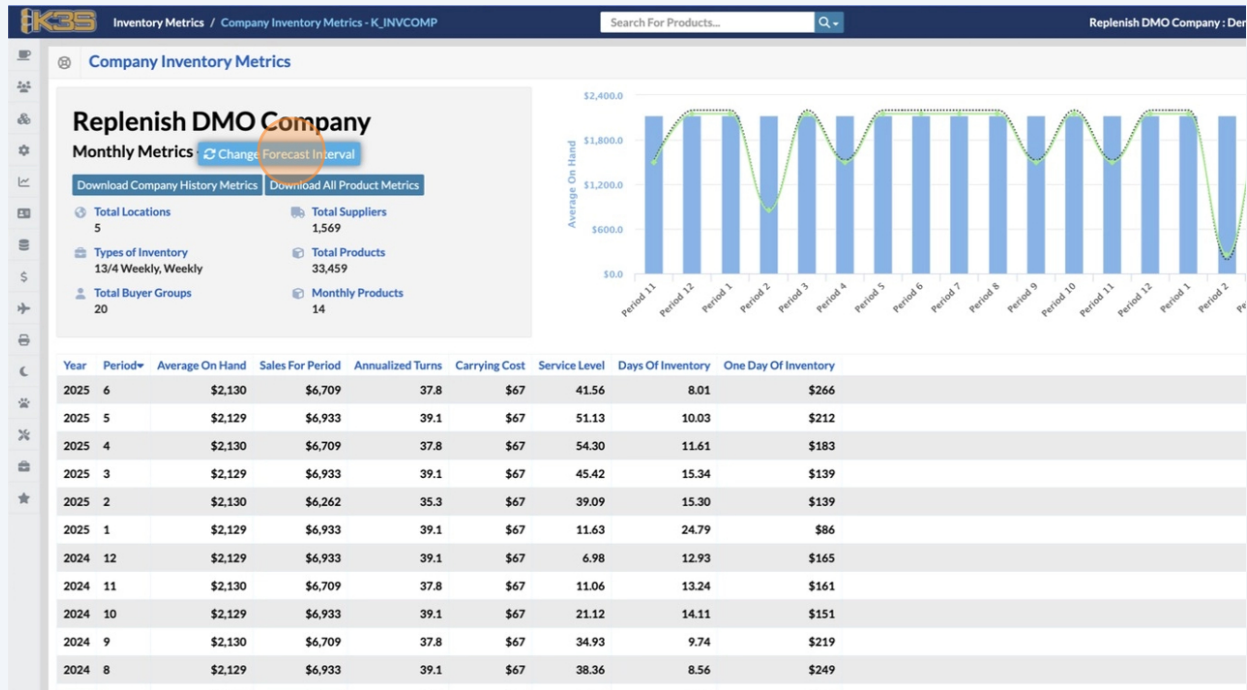

- 1 From the navigation bar, click on the graph icon to access "Inventory Metrics"

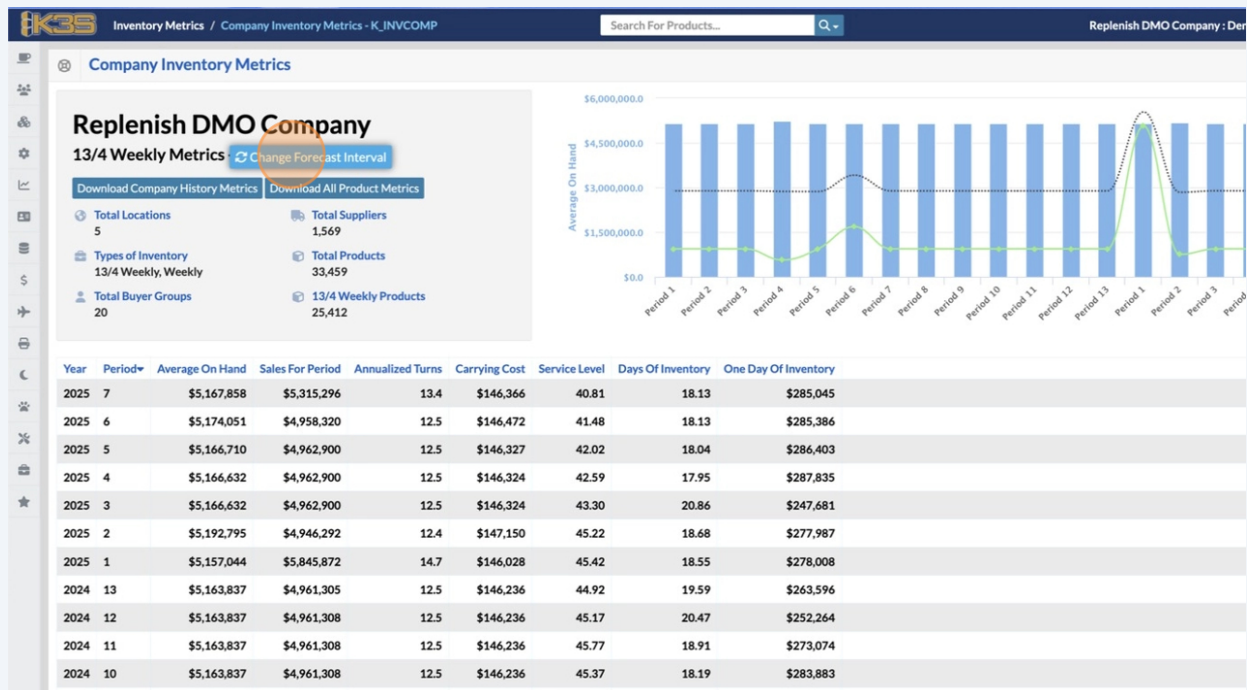

2

You will see a list of your company's metrics, by period, over time. If you have multiple forecasting techniques, like weekly and monthly you can click the "Change Forecasting Interval" to see the metrics for the other category.

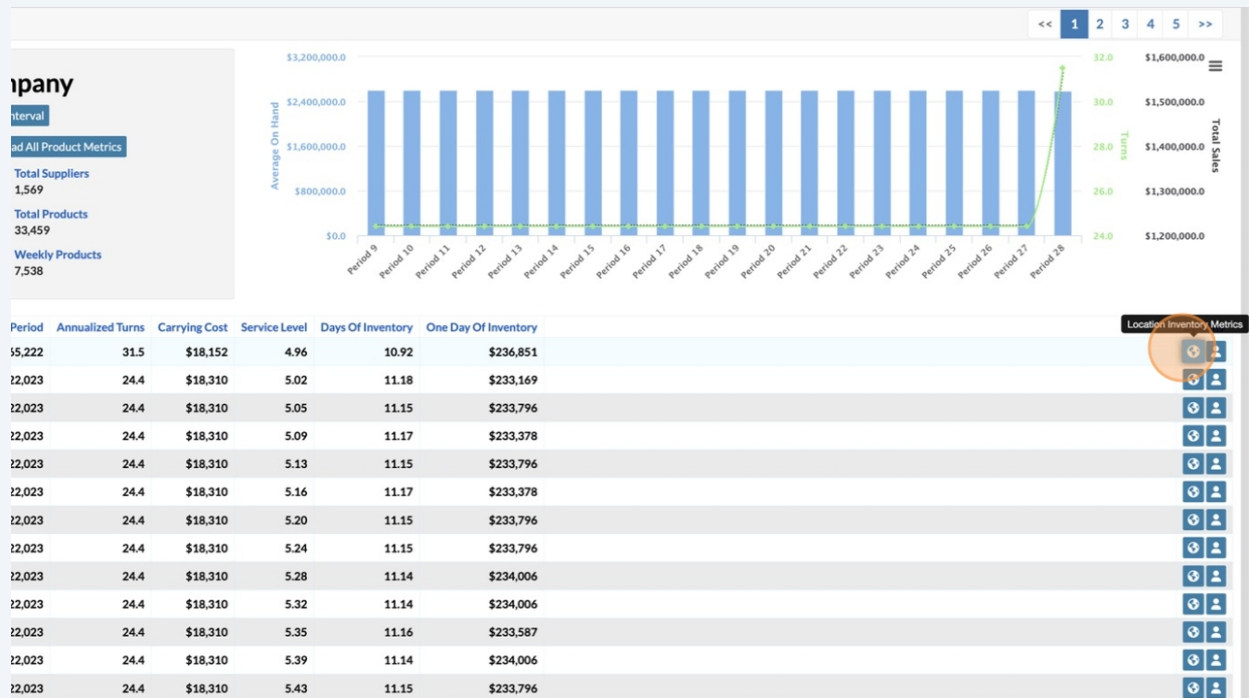

3

Click the "Change Forecast Interval" again to switch back.

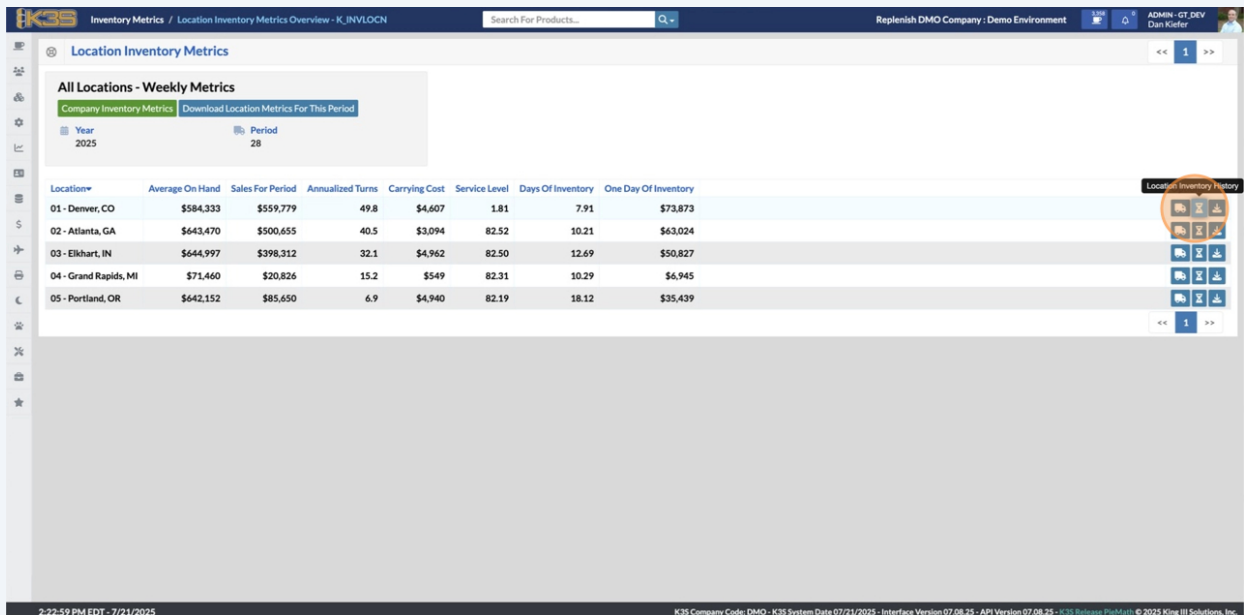

4

From you company's inventory metrics, let's first drill down to the location metrics to see other options. Do this by clicking the "globe" icon.

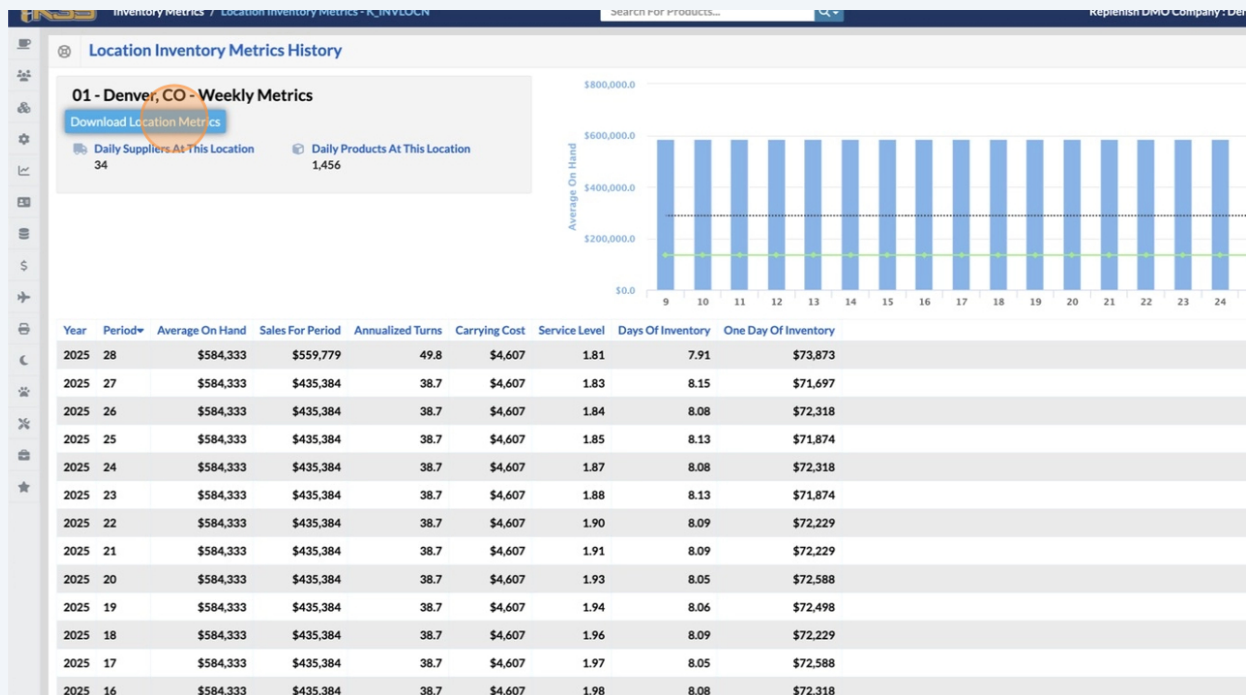

5

This will show the inventory metrics for each location's most recent period. Click on the hour glass icon to see the inventory over time for that location.

6

We are now looking at the inventory metrics for a single location over time. From this screen, and many others, you can click "Download Inventory Metrics" to receive all of the information in a .CSV file.

7

Next, let's review how to see the inventory metrics for each supplier. To do this, from the inventory metrics screen for a location, click on the truck icon.

Supplier Inventory Metrics

Period: 28

Sales For Period	Annualized Turns	Carrying Cost	Service Level	Days Of Inventory	One Day Of Inventory
\$559,779	49.8	\$4,607	1.81	7.91	\$73,873
\$500,655	40.5	\$3,094	82.52	10.21	\$63,024
\$398,312	32.1	\$4,962	82.50	12.69	\$50,827
\$20,826	15.2	\$549	82.31	10.29	\$6,945
\$85,650	6.9	\$4,940	82.19	18.12	\$35,439

8

You will now see a list of all your suppliers with the inventory metrics for the most recent period including; Average onhand inventory, Total Sales, Annualized Turns, Estimated Carrying Cost, Inbound Service Level, Days of Inventory and One Day of Inventory.

To view the inventory statistics over time, click the hour glass.
